THE PUBLIC SERVICE COMMISSION OF
SOUTH CAROLINA
DOCKET NO. 1999-001-E - ORDER NO. 2000-019
JANUARY 5, 2000

IN RE: Annual Review of Base Rates for Fuel Costs) ORDER GRANTING
of Carolina Power & Light Company.) MODIFICATION TO
) FUEL CLAUSE
) ADJUSTMENT TARIFF

This matter comes before the Public Service Commission of South Carolina (the Commission) on the request of Carolina Power & Light Company (CP&L) for a change in the Adjustments for Fuel Costs Tariff. S.C. Code Ann. Section 58-27-865 was amended in 1996 to allow the inclusion of SO₂ emission allowances in an electric utility's fuel clause. CP&L now proposes a change in its tariff to include the SO₂ emission allowances.

We would note that this change to the tariff does not constitute a rate increase or require a determination of the entire rate structure of the Company or the Company's overall rate of return. Under S.C. Ann. Section 58-27-870 (f) (Supp. 1998), the Commission may allow a tariff to be put into effect without notice and hearing under such circumstances. In addition, the tariff change, according to CP&L, will provide orderly rate administration in compliance with the current law.

The proposed tariff change is granted. CP&L shall file ten (10) copies of the revised tariff with this Commission within ten (10) days of receipt of this Order. Clearly, S.C. Code Ann. Section 58-27-865 allows the change to include SO₂ emission

allowances in the fuel tariff. We hold that no notice or hearing is required under the provisions of S.C. Ann. Section 58-27-870(f) (Supp. 1998) to put the change in the tariff provision into effect.

This Order shall remain in full force and effect until further Order of the Commission.

BY ORDER OF THE COMMISSION:

Chairman

ATTEST:

Executive Director
